

Investing in the Future

Being a part of a band program costs money, but what exactly do you receive each semester for your investment?

- 14 private (or in some cases 2 person small-group) weekly lessons each semester (28 per year) from instructors with Master's Degrees in music and fine arts education. And we come to your student's school to give them their lesson!

But that's not all you get!

- Beginners receive an instrument to use for one year, after which we discuss rental or purchase options.
- All music books, materials, and music
- Band rehearsals and concerts
 - Your child will be part of both their own school band, and a region band, where they collaborate with other Lutheran and parochial school students in the area and will have a concert each semester.
- Monday Night Bands (beginner, intermediate, and advanced levels) at Walther Christian Academy.
 - Beginners meet monthly and intermediate and advanced students meet weekly.
 - Students involved in the advanced Monday Night Bands (usually after 2 years of experience) are playing high school level music!
- Biennial Instrumental Music Festival at Walther Christian Academy
 - Spend a day working with clinicians and professional musicians
 - Perform in and listen to various ensembles throughout the day
 - Have fun and make new friends!
- The feeling of being part of a team to praise Christ with your talents!

More detailed information and directions on how to sign up is included in the "Walther Grade School Band Program Information Sheet."
